

## Midget Espoir: Take 4

Samuel Henley

Midget Espoir Take 4:

Changes regarding some of the videos. So read carefully. Some of the kids videos I put up from before. In the last month I have seen these kids play and took new footage of them so instead of making a new video file I decided to add it to what you downloaded way back when. For example #95 Pier-Luc Duval had 1 minute and 17 seconds of footage. I took that same video and added another 9 minutes to it. The old footage is at the start of the video and then new video makes its way after the last clip of the previous footage you have already seen. The other thing I will bring to your attention is in regards to the two players who play for Filon. Henley and Hester. The first video of them that you have all seen would just say FIL at the end. The new footage will say FILA and FILB. The FIL footage was a clip or two of a game they played back in november I think plus the Allstar game and another game. After finishing editing the most recent footage taken of them at the Midget Espoir Finals I noticed that I never put all of their video from the first time I saw them way back when. So FILA will have the old footage that you havent seen and FILB will start with the old footage but finish with the most recent footage taken from the Espoir Finals Tournament. Also I do have Henley playing QMAAA but that wont be added till when the May CSR list comes out. Beside the kids name that I simply added footage I will say "AF" (added footage).

Filon de Malartic:

#95 Pier-Luc Duval: (AF)
