

2009-2010 Hockey Season

This weekend we will be updating our site. On Tuesday August 25 2009, we will upload the 2009 draft with interviews. We will also upload Benjamin Laliberté of the Gatineau Olympiques first intersquad game.

New this year: Last years work was done strictly for teams and we didnt have the time to do much for this site. This year I have corrected that and decided to hire someone to edit the videos for the general HPO site. We will have alot more player features. The Q, O, JrA and minor league hockey (especially the maritimes). As always the videos will be free to download. The forum will be removed and replace with a twitter page. I cant stand twitter nore the forum but with twitter I can post our schedules and so on and not have to monitor anything.
