

Who We Are

Hockey Prospects Online (HPO), a Canadian based company is the brainchild of eight independent and enterprising hockey individuals, with combined experience totaling over fifty years. The HPO vision has come together for the sole purpose of furthering all young players and their hockey experience. We are interested in players at all levels and obtaining exposure for them that would generally not be available. Some of the most successful hockey players never played at the AAA level. Whether your dream is to play Junior Hockey, go the NCAA route or play in the Pro's, HPO's contacts, resources and associates can have the impact you need to obtain that goal. Over the next several months, through major sponsorships in your local teams, a visible presence at local tournaments and even at your practices, the HPO logo will become one that you recognize. Our site will provide detailed individual player video reports with the objective of improving your overall game. HPO will also provide current and up to date information on many subjects that are paramount to having a successful hockey season and productive off season, and much more. Hockey Prospects Online (HPO); think of it as being a Hockey Players Opportunity – to get to where he/she really wants to be! There is more to life than hockey…but not much.
